June 28, 1978

Mr. Paul McKinney
Rural Route #8
Box 48
Decatur, Illinois 62522

Dear Mr McKinney

Your solid waste disposal facility located southwest of Decatur was inspected on June 13, 1978, by Terry G Ayers, representing this Agency.

It was noted during the inspection that you are making progress in getting your solid waste disposal site into compliance. The site appearance and the daily operation are improved. However, the following violations of the Illinois Environmental Protection Act and Solid Waste Rules and Regulations were observed:

A portion of the old fill area lacks adequate daily, intermediate and final cover.

It was observed that broken bags of polyvinyl chloride were being accepted for disposal at your site in violation of Chapter 7 of the Illinois Pollution Control Board Rules and Regulations on Solid Waste. A Supplemental Special Waste Permit must be obtained from this Division's Land Permit Unit, Technical Operations Section for the acceptance of hazardous material, liquid waste, or sludge, in accordance with the aforementioned Rules. Failure to obtain a Supplemental Special Waste Permit prior to your accepting any more of this waste may result in our initiating action to have your Operating Permit revoked by the Illinois Pollution Control Board.

We suggest ~~that you~~ correct the aforementioned violations. A reinspection will be made in the near future to determine your progress.

Sincerely,

Rene' Van Someren, Central Region Manager
Land Field Operations Section
Division of Land/Noise Pollution Control
